To Whom It May Concern

ROHS Compliance

To the best of our knowledge, all of the products currently produced by KPMF Ltd comply with the requirements of the European Union Directive 2011/65/EU on the restriction of the use of recognised hazardous substances in electrical and electronic equipment, also known as "RoHS". The restricted substances noted in Annex 2 of 2011/65/EU are not involved in the formulation of KPMF Ltd products. Testing of KPMF Ltd products measures levels of the regulated substances significantly below permissible levels.

The restricted substances involved and their maximum concentration values by weight are:

Lead (0, 1 %), Mercury (0,1 %), Cadmium (0,01 %), Hexavalent chromium (0,1 %), Polybrominated biphenyls (PBB) (0,1 %), Polybrominated diphenyl ethers (PBDE) (0,1 %), Bis(2-ethylhexyl) phthalate (DEHP) (0,1 %) Butyl benzyl phthalate (BBP) (0,1 %), Dibutyl phthalate (DBP) (0,1 %) and Diisobutyl phthalate (DIBP) (0,1 %).

We at KPMF fully understand how critical is for our Customers to know as soon as possible about the potential for any product not to be supported by us; we are committed to promptly inform all our Customers should a decision like that be taken.
